

Environmental Literacy Planning

Join us at meetings around New Mexico to develop a plan for educating New Mexico's children to steward our environment into the future.

***Tuesday, May 22nd
4pm-6pm***

***Edgewood Soil and Water
Conservation District Office***

2506 Route 66, Moriarty

Refreshments provided.

***RSVP to Vince Case at case@aps.edu
or (505) 281-5259***

Help create a framework to ensure that students increase their environmental literacy and enhance their academic achievement through innovative, real-world, project-based learning. This foundation will provide students with the knowledge and skills to care for our environment into the future.
